Presidents Message

Its time to write letters to the Oregon Congressional Delegation. We need to stop trading away our public lands. An individual petitioned the congress to trade 1000 acres of land he acquired for 11000 acres of prime public land. Every OHA member needs to write to their congressman to oppose this exchange. Too much of our public land is getting into the hands of private individuals. The people of Oregon need to insist that our government stops letting private landowners acquire our public lands. Lets get them letters in the mail today!!!

The Pioneer Chapter will have a booth in the Clackamas County Fair again this year. This is one of our highlights of the year. We hope to have the booth in the same location as last year. Our ATV will be on display in our booth, to promote raffle ticket sales. Also there will be raffle tickets on sale for a Weatherby Sporter rifle and we should sign up some new members. It's a six day event, so we will need a lot of member participation.

Our summer seems to be going well. The water guzzlers are doing well. Thanks to Gary Skou for leading the project. Also a big thank you to Jerry Holbrook for keeping the duck box route going. The group has been putting up new boxes, as well as keeping the existing ones repaired and clean. Thanks to Rich Steuer for keeping the highway crew going. Also thanks to the members that participate in our many projects.

That's all for now Dan Sr.

OHA IN OUR COMMUNITY

Again, thanks to all who volunteered their time for the July projects. The Projects will continue as the summer unfolds so we do need your help. If you can volunteer for any of our projects next month, please contact Dan Allee at (503) 632-6756 or Rich Steuer at (503) 654-6949.

OHA wants to see predator control implemented in the blacktail plan.

OHA COMMENTS ON BLACKTAIL PLAN

The Oregon Hunters Association submitted the following comments to the ODFW on Oregon's new Black-tailed Deer Management Plan:

1. Hunter Recruitment: That words be added to the plan to continue and implement opportunities for youth hunts.
2. Landowner Preference Tags: The plan states LOP tags provide an opportunity for landowners to address property damage caused by deer. The problem is ODFW doesn't consistently confirm damage prior to issuing an LOP tag. The plan doesn't suggest ODFW will evaluate all options to address the complaint prior to issuing a tag. OHA recommends that ODFW ensure that LOP tags are issued for the intended purpose only.
3. Predator Control: Current language states, "Coordinate predator management activities to be consistent with the Oregon Cougar Management Plan and the Oregon Black Bear Management Plan." The words "and implement" should be added.
4. General Population Concerns: While we have already addressed the issue of predator control in our comments, we would like to add that somewhere in the plan we might want to address "an approach to limiting poachers." OHA believes that poachers are a big threat to our populations of deer and elk. We would like to see this concern addressed somewhere in the plan.
5. Data Collection Methods: Issues and Strategies Section. OHA agrees with the language in the plan that a consistent and reliable data collection method be developed to help determine reliable herd composition data. OHA asks that such a system be implemented.
